

Thank you for your purchase :)

FAQ's and Help

Q: How do I install the fonts and the SVG font?

A : The Fonts and SVG font installs like any other regular font - A handy guide on how to install fonts properly can be found in the link below. Once installed - follow the quick guide videos on page two of this help file.

<https://www.fontspring.com/support/installing>

Q: I can't find the Procreate Brushes and Extras?

You should have a PDF file called "Procreate & Extras Download Link" in your files - the link will be in there.

Q: How do I change the colour of the SVG Font in Photoshop and Illustrator?

A: The handy videos below will help you along :)

Help Videos on the Basics of using SVG fonts :

Using SVG font in Illustrator CC 2018 +

Troubleshooting

Q: In illustrator I can only see black blocks when I type?

A : Make sure you are in RGB mode before you use the SVG font - go File-> Document Color Mode-> RGB

Q: The SVG font keeps crashing my photoshop.

A: Before you use the font in Photoshop - make sure your Anti-alais method is set to 'NONE' and that you have no layer style effects on your current layer (Such as strokes/shadows etc). Typing at a smaller size first also helps.

If you have a question not listed above - feel free to message me directly and I'll help you along :)
